

<b>COMPETENCY AREA 1 : WORK PRACTICES, PROCEDURES, SAFETY</b>	Very Confident	Confident	Needs Assistance	Not Applicable	Comments
Safe working practices/techniques for injury-free workplace					
Complies with government/company policies, procedures, guidelines and standards					
Performs preliminary diagnosis to isolate system faults					
Locates and interprets specific information in service manuals and bulletins					
Operates shop equipment and observes maintenance requirements					
Selects, operates and maintains dimensional measuring devices for service and repair of motor vehicles					
Operates and maintains oxy-acetylene welding equipment and identifies uses for electric welding					
Selects, installs and removes fastening and sealing devices					
<b>COMPETENCY AREA 2 : INTERNAL COMBUSTION ENGINE</b>	Very Confident	Confident	Needs Assistance	Not Applicable	Comments
Inspects, tests engine components and isolates malfunctions to defective components or systems					
Inspects, tests and repairs valve train components and assemblies					
Dismantles, cleans, inspects, repairs and reassembles cylinder block assemblies					
Removes and installs engines					
Inspects, tests and repairs engine cooling systems					

Name: \_\_\_\_\_ Supervisor: \_\_\_\_\_ Date: \_\_\_\_\_

<b>COMPETENCY AREA 3 : ENGINE MANAGEMENT SYSTEM</b>	Very Confident	Confident	Needs Assistance	Not Applicable	Comments
Diagnoses engine electronics to isolate drivability/performance/emission control problems caused by electronic components					
Inspects, tests and repairs emission control systems					
Repairs or replaces defective electronic components of engine management and emission control system					
Diagnoses and repairs ignition systems					
Inspects, cleans, diagnoses, repairs and replaces fuel delivery components					
Inspects, tests and repairs air induction systems, including turbochargers, superchargers and intercoolers					
Inspects and services diesel fuel systems					
<b>COMPETENCY AREA 4 : DRIVE LINE SYSTEM</b>	Very Confident	Confident	Needs Assistance	Not Applicable	Comments
Inspects, services and repairs automatic transmissions/transaxles and components					
Inspects, services and repairs clutches					
Inspects, services and repairs manual transmissions/transaxles					
Inspects, services and repairs transfer cases					
Inspects and repairs line drives					
Inspects and repairs components of front and rear differentials such as conventional and locking					

Name: \_\_\_\_\_ Supervisor: \_\_\_\_\_ Date: \_\_\_\_\_

<b>COMPETENCY AREA 5 : ELECTRICAL, ELECTRONIC AND VACUUM CONTROL SYSTEMS</b>	Very Confident	Confident	Needs Assistance	Not Applicable	Comments
Tests and replaces lead/acid storage batteries					
Inspects and services electrical charging systems					
Inspects and services starting systems					
Tests and services body electrical systems					
Inspects, tests and repairs heat, ventilation and air-conditioning systems					
Diagnoses and repairs occupant restraint systems					
<b>COMPETENCY AREA 6 : STEERING, SUSPENSION AND BRAKE SYSTEMS</b>	Very Confident	Confident	Needs Assistance	Not Applicable	Comments
Inspects, tests and services braking systems					
Inspects and repairs tires, wheels, steering linkage and adjusts wheel alignments					
Inspects and services front and rear suspension systems					
Inspects and repairs manual and power steering gears					
Inspects and repairs steering columns					
<b>COMPETENCY AREA 7 : BODY HARDWARE TRIM AND ACCESSORIES</b>	Very Confident	Confident	Needs Assistance	Not Applicable	Comments
Identifies problem area and repairs trim and body hardware					
Installs and services accessories					

Name: \_\_\_\_\_ Supervisor: \_\_\_\_\_ Date: \_\_\_\_\_
