Pre-Placement Expression of Interest

If a TestDrive student is in the vicinity of my business and their interests align with the Motive Power trade in which my business has expertise, I agree to host the student for the 200-hour placement during the summer of 2027.

I understand that TestDrive will notify me of a potential student match by the end of March 2027, allowing me sufficient time to confirm that my business has the capacity and resources to host the student(s).
